We energize the future

About ENERGIZE

ENERGIZE is a company that is a pioneer and leader in the field of building turnkey solar photovoltaic power plants in Serbia.

Since our founding in 2012, we have achieved:

- **90+ MWp** of installed photovoltaic power plants
- **40+ MWh** of storage solutions
- **250,000+** photovoltaic modules
- **1,500+** inverter units
- **60,000+** battery blocks
- **500,000+** low-voltage equipment units
- **300+** production process protection systems
- **200+** solar LED lighting locations
- **150+** functional facilities

We treat every investment as our own, evaluating each project using the Total Cost of Ownership (TCO) principle as a mandatory part of the assessment, with an operational horizon of 30+ years.

We provide our clients with the highest quality equipment and services, specialized engineering expertise, and the best warranty coverage available on the market.

Contents

MANUFACTURING | INSTALLATION | MAINTENANCE AND SERVICE

Energize *TerraCell* is an advanced modular energy unit designed to deliver reliable power, flexibility, and energy independence.

Integrating renewable energy and smart power management, it provides sustainable and efficient electricity wherever reliable energy is needed.

TerraCell

ENERGIZE *CoreNest*

ENERGIZE *WorkBox*

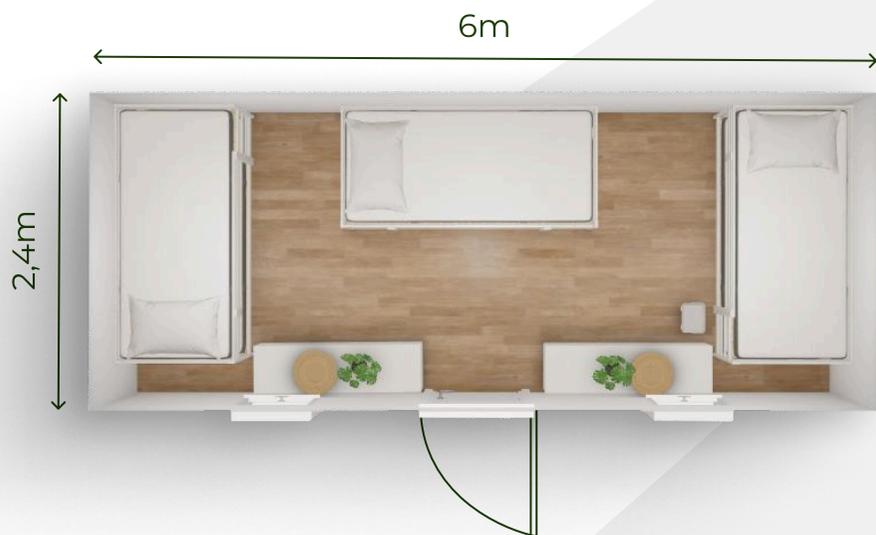

ENERGIZE *SaniPod*

ENERGIZE *Echelon*

ENERGIZE *CoreNest*

CoreNest is a smart, compact living space that blends comfort and function - perfect for off-grid living, guest stays, or weekend getaways.

Product Dimensions

ENERGIZE *WorkBox*

WorkBox is a thoughtfully designed workspace equipped with everything needed for focused and productive work. It brings creativity, comfort, and efficiency together, turning any location into your personal HQ.

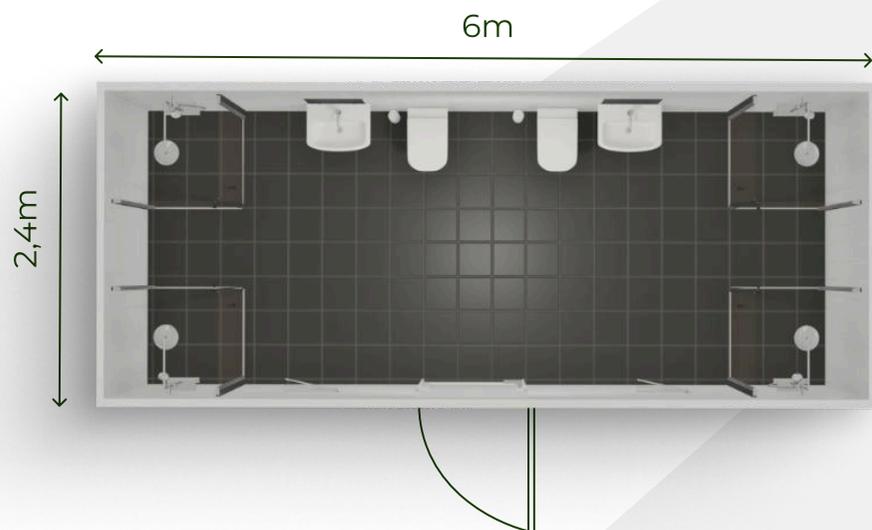

Product Dimensions

ENERGIZE *SaniPod*

SaniPod is a fully integrated sanitary unit that brings modern hygiene standards to any environment. Featuring contemporary fixtures and sustainable systems, it ensures reliable, comfortable, and eco-friendly sanitation without the need for external hookups

Product Dimensions

ENERGIZE *Echelon*

Echelon is a premium living configuration designed for those who expect more from off-grid living. Featuring refined materials, elevated interior design, and top-tier comfort, echelon delivers an elegant and fully self-sufficient living experience, without compromise.
